

# DISCOVER THE TOVERTAFEL: THE ONLY SCIENTIFICALLY PROVEN DEMENTIA CARE SYSTEM

We are excited to offer this interactive game to residents and families!

**The Tovertafel (magic table)** is an **award-winning technology** from the Netherlands that is designed specifically to **engage, stimulate and improve** the quality of life of people living with mid to late stage dementia.

The Tovertafel is an interactive game console that is mounted to the ceiling. It encompasses a projector, speaker and high resolution sensors that display purposeful games onto a table or the floor. It was created as the result of a PhD and co-designed with care homes.

## Benefits to Residents:

- Increases alertness and focus
- Reduces restless and tense behaviors including sundowning
- Promotes social and physical activity for residents

## Benefits to Families:

- Promotes interaction and helps initiate contact
- Increases positive engagement during family visits
- Adds fun and meaningful ways to connect through the power of play
